🪪 SUMMARY

Seasoned Frontend Developer with 6+ years of industry experience, including 5+ years in web development and design. Skilled in requirement analysis, effort estimation, UI/UX design, development, and production support, with a strong track record of delivering high-quality, scalable solutions. Adept at collaborating with cross-functional teams, troubleshooting complex issues, and optimizing application performance. Excellent communicator with experience interacting directly with clients to clarify requirements, resolve product issues, and drive continuous improvements.

💼 WORK EXPERIENCE

Associate Staff Engineer, *Nagarro*   Apr 2023 – Present

Mashreq Bank-   Bangalore, India

- Developed and maintained Mashreq Bank's internal application using React, JavaScript, HTML, and CSS, ensuring a seamless user experience for employees.
- Utilized React Hook Form, custom hooks, useMemo, and useCallback to optimize performance and enhance form handling.
- Collaborated with cross-functional teams, including backend developers, designers, and product managers, to develop and enhance application features.
- Conducted code reviews to improve code quality, enforce best practices, and ensure maintainability.
- Optimized application performance by identifying and addressing memory leaks, unnecessary re-renders, and API call optimizations.
- Managed debugging, and defect resolution to ensure system stability and minimize downtime.
- Led production deployments, validating application stability and coordinating with stakeholders to ensure smooth rollouts.
- Assisted the team during critical periods, providing extra work hours and support during high-traffic seasons.
- Resolved SonarQube issues, improving code quality by fixing bugs, eliminating code smells, and enhancing test coverage.

Lowe's Companies, Inc-

- Worked on Lowe's store selling application.
- Proficient in driving the development of new software features and leveraging a deep understanding of user requirements and technical capabilities.
- Skilled in collaborating with cross-functional teams to conceptualize, design, and implement innovative solutions that enhance product functionality and user experience.
- Experienced in analyzing software systems to identify and address defects efficiently.
- Added Baymax flag for features developed to prevent production crashes.
- Took charge of incident triage and managed both triage and defect resolution independently for the cart team throughout an entire month.
- Provided support and added extra work hours during holiday roster support 2023.
- Managed production deployments and conducted thorough validation procedures for new releases.
- Supported team during various team member's absence by handling their deliverables saving from delays.
- Addressed sonar issues by implementing code enhancements, rectifying code smell issues, and managing test coverage gaps.

Technical Consultant, *Perficient Inc.*   Sep 2021 – Apr 2023
Analog Devices, Inc.-   Bangalore, India

- Developed new components and resolved existing issues as per client requirements on the website using React, HTML, CSS, and JS.
- Analyzed client requirements and estimated time & efforts.
- Completed allocated tasks within given deadlines.
- Conducted code reviews of team members to meet quality and acceptance criteria.
- Attended daily standups to sync up with the team members.
- Conducted internal and client retrospective after each release.
- Increased website functionality by 20% through the implementation of new components.

Programmer Analyst, *Cognizant Technology Solutions Pvt. Ltd.*   Dec 2019 – Sep 2021
Charles Schwab(formerly IFDS)-   Kolkata, India

- Used ReactJS, HTML5, CSS, Bootstrap, and JavaScript to develop software solutions for clients.
- Earned recognition for providing effective KT to new team members.
- Single-handedly managed the delivery of ET Echo project for over a month in the absence of team members.
- Increased client satisfaction by 15% through timely delivery of software solutions.

Programmer Analyst Trainee, *Cognizant Technology Solutions Pvt. Ltd.*   Dec 2018 – Dec 2019
DET Inventory (MetLife)-   Kolkata, India

- Developed web pages using HTML/HTML5, CSS/CSS3, Bootstrap, and JavaScript.
- Utilized tools such as Visual Studio Code and Notepad++ to deliver high-quality software.
- Collaborated with team members to complete a large-scale project.
- Improved team productivity by 10% through effective communication and collaboration.
- Successfully integrated new features to the software solution, resulting in a 25% increase in user engagement.
